

I do not want to see the no call list law that we have in place here in WI to be changed or weakened in any way, shape, or form. I do not want to be harrassed by any type of businesses or organization soliciting by telephone. If anything, make the law stronger. For years we had to deal with the harrassment and finally we get to sit down to a family meal without being bothered. If companies want to contact me do it thru the US Postal system and keep them in business. That way I can fill my circular file and also have plenty of what I call "scratch paper". That should be my right to choose. Defend the people's rights, not always big business just because they have money to push for what they want. Thank you.
